1. Executive summary

THE HEADLINE FINDING — READ BEFORE BOOKING ANYTHING

The single most consequential finding in this research is not about campuses at all.

On March 17, 2026 the SEC issued an interpretive release (Nos. 33-11412; 34-105020, File No. S7-2026-09, effective March 23, 2026) that, for the first time, formally addresses airdrops. It creates a "Covered Airdrop" concept: airdrops of non-security crypto assets where recipients provide NO money, goods, SERVICES, or other consideration do not satisfy Howey's "investment of money" element. But the release expressly "does not extend that conclusion to airdrops for services or other structures that require recipients to provide value in exchange." Practitioner analysis identifies referrals, social-media tasks, and promotional activity as disqualifying.

DGD's new model sits on the wrong side of that line on two independent grounds: 1. Referral rewards are compensation for a SERVICE. 2. The \$21 credit is announced in advance with conditions attached — a PROSPECTIVE, conditioned distribution, which the release treats as materially riskier than a retroactive, unannounced snapshot.

The structural trap: the referral component is TOO LITTLE consideration to trigger state anti-pyramid statutes (which require cash or a purchase) but ENOUGH consideration to break the SEC's airdrop carve-out (which requires zero, including services). The design gets the worst of both frameworks rather than the benefit of either.

The good news is that this is also the cleanest available fix, and it is a product decision rather than a legal one: removing the referral tier — or converting it to a retroactive, unannounced snapshot reward — is the single highest-leverage change available, because it is exactly what moves DGD from outside the Covered Airdrop carve-out to inside it.

What this packet contains

Thirty-seven campuses across nine states, researched against live university pages on August 11, 2026. For each campus: the Fall 2026 academic calendar, the involvement fair or tabling event and whether outside organizations are admitted, the written solicitation policy quoted with its citation, relevant student clubs, verified faculty and staff contacts, catalog courses touching blockchain and fintech, Fall 2026 events, and a recommended approach.

Verification standard: every named person, email address, phone number, date and policy quotation in this packet was confirmed on a live university page. Where a fact could not be confirmed it is marked UNVERIFIED with the URL to check. Those are research gaps, not findings of absence — and most are one phone call each.

The five things that matter most

1. Utah State's registration closes Friday, August 14 — three days from today.

Day on the Quad (\$300, off-campus tier, Sept 2) is the only Utah fair that explicitly sells booths to outside businesses. USU closes routine Taggart Student Center tabling to non-USU entities year-round and expressly forbids an on-campus group from reserving a space for an off-campus business. That single day is effectively the only USU access available all year.

2. The referral mechanic forfeits the SEC's brand-new airdrop safe harbor.

SEC Release 33-11412 (March 17, 2026) created a 'Covered Airdrop' concept for distributions where recipients provide no money, goods, services or other consideration — and expressly declined to extend it to 'airdrops for services.' Referral rewards are compensation for a service, and the \$21 is pre-announced with conditions attached rather than distributed by retroactive snapshot. This is the single most consequential finding in the research, and also the cleanest fix: it is a product decision, not a legal one.

3. The Wyoming Blockchain Stampede is the natural anchor of the whole tour — and it is a funeral.

September 28–30 in Laramie: free, on campus, blockchain-specific, with the Wyoming Legislature's Select Committee on Blockchain meeting in Room 212 on the 28th and 29th. Nothing else in nine states comes close. But CBDI founder Steve Lupien died on July 5, 2026, no successor has been named, and the September 29 dinner is a memorial in his honor. Attend as a participant and a mourner. Do not table, and do not pitch the \$21 at that dinner.

4. Campus policy, not statute, is what will actually stop the program.

Every public university in the footprint requires either written approval, departmental or student-organization sponsorship, or both, before an outside entity may solicit. Six campuses independently foreclose the club-sponsorship workaround by name — Colorado State, Oregon, Utah State, Wyoming, ASU and EWU all have explicit anti-fronting or sponsorship-does-not-cure rules. And the FTX campus ambassador program is the reference case every dean of students in the country now has in mind.

5. Two campuses have confirmed Fall 2026 blockchain or fintech teaching. Start there.

The University of Utah has four FINAN courses scheduled for Fall 2026 with named instructors of record, and the University of Wyoming runs a full blockchain minor (BKCH 3021/4021 plus electives). Portland State has the region's only dedicated blockchain certificate, founded and taught by Prof. Kristi Yuthas, whose stated research interest is the social and ethical impact of distributed ledger technology — she is the most valuable academic conversation available, and she will ask hard questions about the referral mechanic.

2. Action calendar

FIVE DEADLINES FALL INSIDE TWENTY DAYS

Four registrations and three phone calls this week decide most of the fall. The nearest — Utah State's Day on the Quad off-campus registration — closes Friday, August 14. Because USU closes routine tabling to non-USU entities year-round and expressly bans fronting, that single day is effectively the only USU access available for the entire academic year.

The University of Arizona ASUA Vendor Fair has not yet posted Fall 2026 dates, and last cycle's registration closed August 16 at 5pm. That is a phone call to 520-621-2782, not an email.

3. Compliance and regulatory constraints

NOT LEGAL ADVICE

What follows is a sourced issue map for licensed counsel to work from, not legal advice. Items marked [ATTORNEY] require a licensed practitioner in the relevant state. Several statutory citations could not be verified and are flagged as such — do not cite those without checking.

3.1 Assumptions that did not survive checking

Eleven working assumptions behind the brief turned out to be wrong. Several change the risk ranking materially.

Assumption	What the research found	So what
State anti-pyramid statutes are the top risk	NO — they are the LOWEST risk on this list. All nine states define the offence around a participant giving 'consideration,' defined as payment of money or purchase of goods/services/intangible property. Several EXPRESSLY EXCLUDE recruiting effort (UT, WA, MT, AZ; OR excludes 'personal services'). Colorado requires consideration EXCEEDING \$50 — a free program is facially outside its statute. A genuinely zero-cost program falls outside the literal text of all nine.	But treat '\$0 forever, no purchase path' as a HARD ARCHITECTURAL CONSTRAINT, not a marketing decision. The moment any paid tier appears, all nine switch on simultaneously — and Utah's is a FELONY statute.
The CLARITY Act will provide cover	NO — the CLARITY Act IS NOT LAW. It passed the House 294–134 on July 17, 2025 and was placed on the Senate Legislative Calendar June 1, 2026; it still requires 60-vote Senate passage and reconciliation with the Senate Agriculture version. The GENIUS Act (stablecoins) WAS signed July 18, 2025. Do not plan around CLARITY passing before Fall 2026.	Plan for the law as it is in August 2026, not as it may be in 2027.
The \$600 1099 threshold applies	OUT OF DATE. The One Big Beautiful Bill Act §70433, signed July 4, 2025, raised the IRC §§6041 and 6041A information-reporting threshold from \$600 to \$2,000, effective for payments made in 2026 (inflation-indexed from 2027).	At \$21/validation a single validation is far below — but a heavy referrer clears \$2,000 in roughly 95 referrals, which is achievable for a motivated campus ambassador. Sub-threshold amounts remain TAXABLE INCOME regardless.
Washington has a comprehensive privacy act to worry about	NO — Washington has NO comprehensive consumer privacy act, only the My Health My Data Act, which is not on point. Washington is LOW privacy risk here.	The state to actually watch is MONTANA: the MCDPA threshold is 50,000 consumers — the lowest of the nine — and it is plausible if the program scales.
COPPA is the relevant minors statute	WRONG STATUTE, and it will lull you. COPPA's threshold is UNDER 13 — essentially no undergraduates. The real problem is contract law: a person UNDER 18 can generally disaffirm a contract, meaning a minor can accept the \$21, refer friends, and then void the terms of service, arbitration clause, and any clawback.	Dual-enrolled high schoolers are on every campus in all nine states and frequently hold institution-issued .edu addresses — so the .edu path is SPECIFICALLY the path that admits minors. Age-gate at 18 AT THE TABLE.
FERPA governs your collection of student emails	NO — FERPA binds funded educational institutions, not third parties. A student voluntarily typing their own email at a table is not a disclosure 'from education records' by the institution. The real constraint is the university's own solicitation/AUP policy and any data-sharing agreement.	DO NOT represent to any student or administrator that DGD is 'FERPA compliant' — the statute doesn't apply to you and the claim would itself be a \$5 deception risk.
WSU Spokane is a good	NO — WSU Spokane is WSU's HEALTH SCIENCES campus (Medicine,	Redirect that stop to Pullman, 75 miles

Assumption	What the research found	So what
target	Nursing, Pharmacy, Medical Sciences). There is no undergraduate business or CS program there. The business and CS students are at WSU PULLMAN.	south.
EWU is on semesters	NO — EWU is primarily a QUARTER institution: 'four 10-week terms per year,' with semesters only for specific programs.	Only WSU and Gonzaga are semester schools in Washington.
UVU has a blockchain/fintech program	NOT SUPPORTED — no fintech, blockchain, or digital-assets program, center, or institute appears anywhere on the Woodbury School of Business site.	UVU is a place to BUILD a club relationship, not to find one.
CU Boulder's Media Archaeology Lab has a blockchain footprint	NO — the MAL is a historical-computing hardware archive directed out of English/Intermedia. No blockchain research footprint found.	CU Boulder's real blockchain presence is Eric Alston at Leeds, the CYBR/CSCI 5240 course, and the CU Blockchain RSO.
Arizona campuses have already started Fall 2026	NO — no campus in the dataset has started as of Aug 11, 2026. Earliest starts are ASU and CU Boulder on Aug 20.	There is a 9-day runway before the first campus opens.

3.2 Issue map

1. Referral Compensation / Endless-Chain & Pyramid Law

Severity: LOW (statutory) — but a cliff, not a slope

All nine state anti-pyramid statutes require the participant to give 'consideration,' defined as cash or a purchase; several expressly exclude time and effort spent recruiting. A genuinely free program falls outside their literal text. The real referral exposure is FEDERAL and UDAP-based. The FTC's Koscot analysis has no consideration element: it asks whether there is a right to receive rewards for recruiting 'unrelated to the sale of the product to ultimate users,' and directs attention to 'the incentives that the compensation structure creates.' DGD has NO product sold to ultimate users at all — in a Koscot frame the entire compensation structure is recruitment. Whether \$5 reaches a scheme with zero participant outlay is genuinely unsettled; no enforcement action against a free-to-join, no-purchase referral program was found.

What this means for a campus table

Keep the program genuinely free — no fee, no purchase, no 'buy in to unlock referrals,' no upsell tier. Colorado's \$50 floor is per-participant: a \$51 anything destroys it.

2. Securities & Money Transmission

Severity: ⚠️ **HIGHEST** — this should gate the Fall 2026 launch

See the headline finding. Beyond Howey: state money-transmitter exposure turns on whether USD-denominated redeemable 'credit' is stored value. PEER-TO-PEER TRANSFERABILITY IS THE SINGLE FACT MOST LIKELY TO CONVERT THIS INTO MONEY TRANSMISSION EVERYWHERE. If credit is non-transferable and redeemable only for DGD's own goods, the analysis gets much easier; if it is transferable or cashable, assume licensing exposure in ID/WA/OR/UT/CO/NV/AZ.

What this means for a campus table

Do not launch the campus program until counsel has answered whether the referral tier forfeits the Covered Airdrop carve-out, and whether a restructured retroactive distribution gets back inside it.

If DGD issues credit purely gratuitously and receives nothing, the acceptance prong is arguably unmet — but the guidance recognizes NO exemption for free distributions or closed-loop systems. [ATTORNEY]

3. KYC / AML / Privacy

Severity: MODERATE — and largely self-inflicted

A BSA/KYC obligation attaches only if DGD is a money services business — which loops back to Issue 2. IF DGD IS NOT AN MSB, IT HAS NO BSA OBLIGATION, AND COLLECTING GOVERNMENT ID IS A PURE LIABILITY WITH NO OFFSETTING COMPLIANCE BENEFIT. Meanwhile collecting ID documents may pull DGD into the GLBA Safeguards Rule and creates breach exposure.

What this means for a campus table

DON'T COLLECT WHAT YOU DON'T NEED. Since the KYC path is optional and the BSA likely doesn't compel it, the cheapest risk reduction available is to NOT SCAN GOVERNMENT ID AT A FOLDING TABLE AT ALL.

4. The .edu Email Path

Severity: MODERATE — the credential is weaker than it looks

FERPA does not bind DGD (see Premise Corrections). The real constraint is each university's own solicitation policy and acceptable-use policy. Separately, .edu verification is TRIVIALY DEFEATED — alumni addresses that never expire, dual-enrollment accounts issued to minors, community-college self-service signup, forwarding aliases. That is a serious problem when the credential gates \$21 of transferable value.

What this means for a campus table

Treat .edu as a WEAK SIGNAL, NOT A CREDENTIAL. Assume a nontrivial fraction of .edu accounts belong to alumni and to under-18 dual-enrolled students.

The vendor is bound because it is 'under the direct control of the agency or institution.' 34 C.F.R. §99.31(a)(1)(i).
University AUP language	⚠ COULD NOT VERIFY — a survey of university acceptable-use-policy language expressly barring third-party use of .edu addresses as a verification credential was not completed. Search each target institution's IT AUP and solicitation policy directly.

5. Minors

Severity: ⚠ HIGH — and the .edu path is what creates it

A minor can accept the \$21, refer friends, and then disaffirm the terms of service, the arbitration clause and any clawback. Dual-enrolled high schoolers are on every campus in all nine states and frequently hold institution-issued .edu addresses.

What this means for a campus table

AGE-GATE AT 18, AT THE TABLE, BEFORE THE PHONE COMES OUT — not at 13. Because the Colorado and Oregon provisions are keyed to ACTUAL KNOWLEDGE, a tabling rep who can see they're talking to a high schooler creates knowledge the company then has.

Citation	What it says
COPPA, 15 U.S.C. §§6501–6506; 16 C.F.R. Part 312	Applies to children UNDER 13 — essentially no undergraduates. Well-established but not independently fetched this session; verify before quoting.
Minor's right to disaffirm	General common-law contract principle. [ATTORNEY] — state-by-state; the rule and its exceptions were not verified in any of the nine.
Utah App Store Accountability Act, SB 142 https://www.khlaw.com/insights/kids-and-teens-privacy-2025-look-back-and-2026-predictions-part-ii-state-privacy-patchwork	Enacted Mar 26, 2025 — app-store age verification + age signals to apps. DIRECTLY RELEVANT if DGD ships a mobile app.
Colorado Privacy Act minors amendments	Eff. Oct 1, 2025: duty to address 'heightened risk of harm' to minors, DPIAs, and a prohibition on design features that 'significantly increase, sustain, or extend' minor use. ⚠️ A REFERRAL LEADERBOARD IS EXACTLY THIS KIND OF FEATURE.
Montana CDPA amendments	Eff. Oct 1, 2025 (parallel to Colorado).
Oregon HB 2008	Eff. Jan 1, 2026: bans TARGETED ADVERTISING to consumers known to be 13–15.

6. Tax

Severity: LOW severity, but expensive to fix retroactively

Promotional credit and referral rewards are taxable income to recipients regardless of reporting thresholds. Referral rewards paid for RECRUITING ACTIVITY look like §6041A compensation for services — a 1099-NEC question, not a prize question.

What this means for a campus table

Collect W-9 information FROM HIGH-VOLUME REFERRERS BEFORE paying them past \$2,000 — chasing TINs from graduated students in January is how backup-withholding liability happens.

Citation	What it says
One Big Beautiful Bill Act §70433 https://www.littler.com/news-analysis/asap/tax-bill-changes-1099-reporting-thresholds	Signed Jul 4, 2025: raises the IRC §§6041 and 6041A information-reporting threshold from \$600 to \$2,000, effective for payments made in 2026, inflation-indexed from 2027. Sub-threshold amounts remain TAXABLE.
Form 1099-DA https://www.irs.gov/newsroom/final-regulations-and-related-irs-guidance-for-reporting-by-brokers-on-sales-and-exchanges-of-digital-assets	Gross proceeds for transactions on/after Jan 1, 2025; basis reporting on/after Jan 1, 2026. 'Broker' = custodial platforms that 'take possession of the digital assets being sold.' NON-CUSTODIAL PLATFORMS ARE EXCLUDED, and a platform that merely distributes tokens without effecting sales is outside these rules — so 1099-DA is likely NOT DGD's problem. 1099-NEC/MISC is.

7. Campus Marketing Restrictions

Severity: ⚠️ MOST LIKELY TO ACTUALLY HALT THE PROGRAM

The binding constraint here is contractual and institutional, not statutory — universities control their own property and most require sponsorship or prior approval for third-party solicitation. The CARD Act does not cover crypto, but it established a durable institutional INSTINCT: many schools adopted flat bans on marketing financial products to students, written broadly enough to capture DGD by their terms. This is the area most likely to end the program operationally, quickly, and without any lawsuit.

What this means for a campus table

Get WRITTEN permission per campus, per event, before Fall 2026. Assume the sponsoring-student-org route is the only viable one at public universities. Budget for the possibility that a single bad local news story propagates a ban across a state system.

Citation	What it says
CARD Act of 2009, Pub. L. 111-24, 12 C.F.R. §1026.57 https://www.ecfr.gov/current/title-12/chapter-X/part-1026/subpart-G/section-1026.57	Prohibits issuers from offering a college student 'any tangible item to induce such student to apply for or open an open-end consumer credit plan' where the offer is made ON CAMPUS, NEAR CAMPUS, or at an institution-sponsored event. ⚠️ This does NOT reach DGD (no open-end credit plan) — but '\$21 in exchange for signing up, at a table on campus' is a near-perfect factual match to the conduct Congress banned. EXPECT ADMINISTRATORS TO REACT TO THE PATTERN, NOT THE CITATION.
Columbia University — Prohibition of On-Campus Credit Card Marketing to Students https://universitypolicies.columbia.edu/content/prohibition-campus-credit-card-marketing-students	A real policy that would capture DGD by its terms: 'The on-campus advertising, marketing or merchandising of credit cards directed at students is prohibited.' Enforcement: 'Violating commercial entities MAY LOSE CAMPUS ACCESS.'
Boise State Policy 1160 — Solicitation https://www.boisestate.edu/policy/governance-legal/solicitation/	A target-state example: outside groups may solicit only 'if sponsored by a University unit or University-recognized student organization'; financial-product promotion is permitted only for state-endorsed programs coordinated through HR. Expect this structure across public universities in all nine states.
⚠️ FTX campus ambassadors — the closest real-world precedent https://www.cnbc.com/2023/02/14/promoting-ftx-was-their-side-hustle-now-theyre-picking-up-the-pieces-.html	CNBC, Feb 14, 2023. The program was EXPLICITLY RECRUITMENT-COMPENSATED: one ambassador described the job as 'referring people and getting them to sign up, and making sure they started trading and depositing money,' paid 'as long as he fulfilled certain tasks and met targets.' Ambassadors ran campus events targeting '500 to 1,000 or 1,500 students.' On collapse, ambassadors bore the reputational damage from peers who lost money on their recommendation. THIS IS THE REFERENCE CASE EVERY GENERAL COUNSEL AND DEAN OF STUDENTS IN THE COUNTRY NOW HAS IN MIND.
Could not verify	No US university policy expressly naming cryptocurrency or digital assets in its solicitation policy was found, nor a documented instance of a crypto company being formally banned from a US campus. Web-search budget was exhausted — this is a GAP, not a negative finding.

8. Advertising / UDAP — student ambassadors as compensated endorsers

Severity: HIGH probability, moderate severity, ENTIRELY PREVENTABLE

Student referrers are COMPENSATED ENDORSERS. Under the FTC Endorsement Guides the material connection must be disclosed EVERY TIME a student promotes DGD — including in a dorm-room conversation and in an unlabeled Instagram story. Liability for ambassador non-disclosure RUNS TO THE COMPANY, and 19-year-olds paid per signup will not disclose consistently without training and monitoring. Separately, describing \$21 as 'free money' while it is locked, non-transferable, or contingent is a straightforward deception risk.

What this means for a campus table

Put '#ad' / 'I get paid if you sign up' in the ambassador contract as a MATERIAL TERM WITH A CLAWBACK, provide pre-written disclosure copy, and spot-check ambassador social posts. Ban unqualified 'free money,' 'risk-free,' and any statement about future token value outright.

Citation	What it says
FTC Endorsement Guides, 16 C.F.R. Part 255 (2023 revision) https://www.ftc.gov/system/files/ftc_gov/pdf/p204500_endorsement_guides_in_2023.pdf	Material connections must be clearly and conspicuously disclosed; the revision expanded treatment of employee/ambassador endorsements and of ADVERTISER RESPONSIBILITY FOR ENDORSER CONDUCT.
Washington — Ch. 19.86 RCW (Consumer Protection Act)	Confirmed as the enforcement vehicle for RCW 19.275.
Oregon — ORS 646.608 (UTPA) https://oregon.public.law/statutes/ors_646.608	\$646.608(1)(r) expressly reaches one who 'organizes or induces or attempts to induce membership in a pyramid club.'
Idaho — Idaho Code §48-603 (Consumer Protection Act)	Catch-all at §48-603(17): 'Engaging in any act or practice that is otherwise misleading, false, or deceptive to the consumer.' Note §48-603 does NOT reference pyramid schemes — Idaho's pyramid provision is the criminal §18-3101.
Colorado — C.R.S. §6-1-101 et seq.	Colorado Consumer Protection Act.
Nevada — NRS Ch. 598	NRS 598.110 makes pyramid schemes/endless chains a deceptive trade practice.
⚠️ Could not verify	UT CSPA, MT, WY and AZ general UDAP section numbers were NOT verified. Do not cite them without checking at le.utah.gov , mca.legmt.gov , wyoleg.gov , azleg.gov .

3.3 Red flags, ranked

#	Risk	Detail	Severity
1	The referral tier forfeits the SEC's brand-new airdrop safe harbor.	Release 33-11412 (Mar 2026) excludes airdrops requiring recipients to provide 'services or other consideration,' and referrals are named as disqualifying. The single most consequential finding — and the cleanest fix.	HIGHEST severity, cleanest fix
2	Prospective, pre-announced, conditioned distribution.	Even setting referrals aside, the release treats retroactive, unannounced snapshots as far safer than prospective distributions announced with conditions attached. DGD's entire model is a pre-announced conditional offer.	High
3	Campus access will be denied or revoked on institutional-policy grounds.	Boise State Policy 1160 requires a sponsoring unit or RSO; Columbia-style flat bans on student-directed financial marketing are widespread. This stops the program in Fall 2026 without anyone filing anything.	MOST LIKELY TO ACTUALLY HALT THE PROGRAM
4	The FTX ambassador precedent poisons the well.	A recruitment-compensated crypto campus ambassador program is a pattern administrators have already been burned by. Reputational	High

#	Risk	Detail	Severity
		reaction is likely to outrun legal analysis.	
5	Minors obtained via the .edu path.	Dual-enrolled high schoolers hold .edu addresses; a minor can disaffirm the TOS while keeping the value. Colorado's Oct 2025 minors amendments target exactly the engagement-maximizing design a referral leaderboard embodies.	High
6	Money transmission if credit is transferable or fiat-redeemable.	MT and WY are permissive; the other seven are not. TRANSFERABILITY is the fact that flips this.	Moderate-High
7	FTC Act §5 / Endorsement Guides non-disclosure by student referrers.	High probability, moderate severity, entirely preventable with training and contract terms.	Moderate
8	Any future paid tier detonates nine state anti-pyramid statutes at once.	Including Utah's felony provision (§76-17-303). Currently dormant — but it is a cliff, not a slope.	Dormant / catastrophic if triggered
9	1099-NEC exposure for high-volume referrers at the new \$2,000/2026 threshold.	Low severity, easy to manage prospectively, expensive to fix retroactively.	Low
10	State anti-pyramid statutes as currently structured.	GENUINELY LOW RISK given the verified consideration requirements — contrary to the initial framing. Listed last deliberately.	Low

3.4 Questions that require a licensed attorney

Jurisdiction	Question
Federal / multistate	Does the DGD referral tier fall outside the 'Covered Airdrop' interpretation in Release 33-11412 — and can a restructured (retroactive, unannounced) distribution get back inside it? — Securities counsel with crypto practice.
Federal / multistate	Is DGD an MSB under FIN-2019-G001 where it issues credit gratuitously and receives no value? — BSA/AML counsel.
Federal / multistate	Is DGD a 'financial institution' under the GLBA Safeguards Rule, 16 C.F.R. Part 314, if it collects government ID?
Federal / multistate	Is the \$21 credit a prize, compensation for services, or a rebate for §§6041/6041A purposes, and when is it recognized? — Tax counsel/CPA.
Federal / multistate	Does FTC Act §5 reach a free-to-join, no-purchase recruitment-reward structure? (No enforcement precedent found — an OPEN question, not a settled one.)
All nine states	Is USD-denominated, redeemable 'credit' money transmission or stored value under that state's act? Does peer-to-peer transferability change the answer?
All nine states	Can a minor disaffirm the TOS, and what survives disaffirmance (arbitration clause, clawback, class waiver)?
Wyoming	Does the §40-22-104(a)(vi) virtual-currency exemption cover a DOLLAR-DENOMINATED balance? And what exactly does §40-3-103 ('Endless Chains and Referral Sales Prohibited') prohibit — its text COULD NOT BE RETRIEVED.
Nevada	Verify NRS 598.100's definitions of 'consideration' and 'endless chain' — UNVERIFIED. Note NRS 598.120 makes participant contracts voidable.
Utah	Confirm the 76-6a → 76-17 recodification is correctly applied; confirm the App Store Accountability Act (SB 142) does not impose age-signal duties on a DGD mobile app.
Colorado	Confirm the >\$50 threshold in §6-1-102(9) forecloses pyramid liability, and assess the Oct 2025 minors amendments against a referral leaderboard.

Jurisdiction	Question
Montana	Confirm no MT licensing applies to this product notwithstanding the Division's general statement; monitor the 50k MCDPA threshold.
UT, MT, WY, AZ	Confirm the correct general UDAP section numbers — these COULD NOT BE VERIFIED.
Per campus	Review each institution's solicitation policy, IT acceptable-use policy, and facility-use agreement before booking tabling. — Higher-education counsel.

4. The compliant booth model

ONE BOOTH DESIGN THAT WORKS EVERYWHERE

This is not a conservative reading. It is the literal intersection of four real policies found in this research: Montana State bans any monetary exchange at Catapalooza but expressly permits handouts and collecting contact information for post-event follow-up; Weber State bars vendors from having students sign any contract for services on site; Colorado State bans requesting credit card information, Venmo or similar app information; and WSU bars distribution by accosting, confronting, detaining or waylaying individuals.

Designed this way, the same booth is compliant at every campus in the packet — and it removes the CARD Act pattern-match (a tangible inducement offered to a student, on campus, to open a financial account) that will otherwise alarm every dean of students who sees it.

#	Rule	Why — the policy or statute behind it
1	Age-gate at 18 before anything else	Colorado and Oregon minors provisions are keyed to ACTUAL KNOWLEDGE. A rep who can see they're talking to a high schooler creates knowledge the company then has.
2	Educate at the table; do not transact at the table	MSU Catapalooza expressly permits 'informational items, coupons, hand-outs, freebies, company contact information' and collecting contact info for post-event follow-up — and expressly bans monetary exchange. Weber State separately bans having students 'sign any kind of contract for services on site.' CSU bans 'requesting credit card information, Venmo or similar app info.' The intersection of these rules IS your national booth policy.
3	Capture an email; complete validation off-campus, off-clock	This single design choice makes the booth compliant at MSU, Weber, CSU and everywhere stricter, and removes the CARD Act pattern-match that alarms administrators.
4	No government ID scanning at a folding table	If DGD is not an MSB, there is no BSA obligation compelling it — so it is pure liability with no offsetting benefit.
5	No raffles anywhere	Prohibited at Boise State (Idaho gambling law, up to \$10,000), university-wide at UArizona, and for ASU departments per an Arizona AG determination.
6	Ambassadors disclose the material connection every time	FTC Endorsement Guides, 16 C.F.R. Part 255. Make it a contract term with a clawback and provide pre-written copy.
7	Never say 'free money' or 'risk-free,' never forecast token value	FTC Act \$5 deception risk, and the fastest route to a campus complaint.
8	Stay behind the table; no approaching passers-by	WSU: distribution 'by means of accosting, confronting, detaining, or waylaying individuals or by hawking is prohibited.' UW Wyoming: 'All the members of your group must stay behind the table.' Weber: no 'aggressive sales tactics.'
9	Bring the written approval to the table	Most policies make the individual staffing the booth the person asked to leave. UArizona: 'Unapproved vendors are prohibited on campus' — verify approval status by calling (520) 626-2630.

Insurance requirements found

Campus	Requirement
University of Oregon	\$1M Commercial General Liability / \$2M aggregate, UO named as additional insured. TULIP available.

Campus	Requirement
UNLV	Combined single limits of liability of at least \$1,000,000, naming the Board of Regents as additional insured, plus hold-harmless/indemnification.
Colorado School of Mines	\$1M per accident bodily injury; \$3M per accident property damage. URMIA-TULIP available.
Western Washington	May require an advance deposit, bond, or insurance (POL-U1000.06).
University of Arizona	Certificate required ONLY for vendors providing food/beverage samples or displaying a vehicle — DGD would likely be exempt.
ASU	Events involving non-university individuals require ≥2 weeks' notice due to added approvals, INSURANCE and fees.

5. Recommended route and budget

LEG 0 — THIS WEEK (Aug 11–16), from a desk

No travel. Four registrations and three phone calls decide most of the fall.

- Aug 14: register USU Day on the Quad, off-campus tier (\$300) — dotq@usu.edu
- Aug 11–12: PHONE UArizona ASUA Vendor Fair, 520-621-2782 — Fall 2026 dates unposted, prior deadline Aug 16
- Aug 11–12: PHONE WSU University Events, 509-335-6674 — All-Campus Picnic is Aug 21
- By Aug 27: register OSU Beaver Community Fair (\$200)
- By Aug 31: REQUEST an invitation to WWU Fall Info Fair (\$300) — invitation-only
- Now: apply to UO ASUO Street Faire (applications release August; \$20 app fee; insurance required)
- Now: email U of Idaho Palousafest, ventertainment@uidaho.edu — \$40/table, registration opened in May

LEG 1 — LATE AUGUST: Palouse & Northern Rockies

Aug 21–28. WSU is the only semester school in WA, so its term is already running while quarter schools sleep.

- Aug 21 — WSU Pullman, All-Campus Picnic
- Aug 24 — U of Idaho, Moscow (8 miles from Pullman); file the APM 20.12 written approval
- Aug 26–28 — drive to Bozeman
- Aug 28 — Montana State, Catapalooza (the model non-transactional booth)
- Optional Aug 28 — Weber State Wildcat Block Party, Ogden (\$375) if you split the team

LEG 2 — EARLY SEPTEMBER: Wasatch Front

Sep 2–16. Utah's three paid/open windows fall in a two-week band.

- Sep 2 — Utah State, Day on the Quad, Logan (registered Aug 14)
- Sep 3–4 — U of Utah, Salt Lake City: guest-lecture outreach to FINAN 2140 / 5140 instructors
- Sep 15–16 — UVU Club Rush, Orem
- Skip BYU Provo — no route exists

LEG 3 — LATE SEPTEMBER: THE ANCHOR

Sep 22–30. Two independent draws in one week.

- Sep 22 — WWU Fall Info Fair, Bellingham (if the invitation lands)
- Sep 25 — OSU Beaver Community Fair, Corvallis
- ⚠️ Sep 28–30 — WYOMING BLOCKCHAIN STAMPEDE, Laramie. Free, on campus, with the Legislature's Select Committee on Blockchain in the room. Attend the Sept 29 Lupien memorial dinner with appropriate restraint.
- Note: WWU/OSU and Laramie are not drivable in the same week — split the team or choose.

LEG 4 — OCTOBER: Pacific Northwest metro

Oct 1–18. The strongest club ecosystems in the region.

- Oct 1 — PSU Party in the Park, Portland; meet Prof. Kristi Yuthas (blockchain certificate founder)
- Oct 7 — UW Fall Job & Internship Fair, Seattle
- Oct 14-16 — UO ASUO Street Faire, Eugene; meet Oregon Blockchain Group (Ripple UBRI)
- Oct 17-18 — DubHacks 2026, UW Seattle (sponsor)
- Optional Oct 15 — BYU-Idaho Career Fair, Rexburg, ONLY if genuinely hiring

LEG 5 — LATE OCTOBER / NOVEMBER: Southwest

Flexible. Relationship-led, not booth-led.

- ASU Tempe — Dr. Dragan Boscovic (Blockchain Research Lab director AND BFC club advisor). One email reaches both.
- CU Boulder — CU Blockchain RSO meets MONDAYS 6PM, ECCR 200; Eric Alston at Leeds. UMC tabling \$250-350/day with RSO sponsorship + University Contract.
- Colorado Mines, Golden — 25 min from Boulder; bundle
- UArizona Tucson — Vendor Fair if the registration landed
- SKIP: CSU Fort Collins (payment-credential ban + anti-fronting), UNLV (business promotion banned), NAU (no policy retrievable), DU (term ends Nov 20)

Budget — published costs only

Line item	Cost	Notes
Utah State — Day on the Quad	\$300	Off-campus vendor tier, nonrefundable. 2025 figure.
U of Arizona — ASUA Vendor Fair	\$500 / \$800	Per event / school-year package (both fairs), for-profit tier.
Weber State — Wildcat Block Party	\$375	For-profit vendor, includes 1 parking pass.
Western Washington — Fall Info Fair	\$300 / \$150	Full / half table, for-profit. Sponsorships \$1,000-\$7,500.
Oregon State — Beaver Community Fair	\$200	External business. +\$200 additional booth, +\$35 additional table.
WSU Pullman — All-Campus Picnic	~\$200	Community groups/businesses. ⚠️ Confirm the 2026 figure.
CU Boulder — UMC tabling	\$250-\$500/day	Informational \$250 standard / \$350 premium; selling \$350 / \$500. Premium = first two weeks of classes. Max 15 days/semester. Requires RSO sponsorship + University Contract.
U of Oregon — ASUO Street Faire	\$20 app + booth fee	Application fee covers both 2026 and 2027 faires. Commercial booth rate UNVERIFIED.
U of Oregon — Scheduling tabling	\$20-330/day	Outside vendors: max 2 days/week; product vendors confined to the Upper Amphitheater. \$100 nonrefundable deposit.
U of Idaho — Palousafest	\$40/table	Community partners, non-profits and public entities. Cheapest legitimate access in the dataset.
BYU-Idaho — Fall Career Fair	\$250	Employers. Grad schools \$200; +\$25/recruiter beyond 2; non-profits ~\$75. ⚠️ Hiring channel only.
Montana State — Catapalooza	Unpublished	'We ask for an event fee from MSU offices and off-campus organizations.'

Line item	Cost	Notes
Portland State — Party in the Park	Unpublished	External orgs admitted as sponsors — contact shattuck@pdx.edu.
Insurance (where required)	Varies	\$1M CGL / \$2M aggregate typical (UO, UNLV). Mines: \$1M bodily injury / \$3M property. TULIP is the usual short-term vehicle.

Costs are what each institution publishes. Where a fee is unpublished it is marked as such — assume for-profit rates and no discount.

6. Campus briefs, by state

Campuses are grouped by state in tour order, and within each state by access rating — the campuses most open to an outside organization appear first. The access rating reflects what the written policy permits, not how promising the audience is.

Rating	Meaning
5/5	Open — outside organizations explicitly admitted
4/5	Workable — a paid or documented route exists
3/5	Gated — approval or sponsorship required
2/5	Hard — commercial activity restricted
1/5	Effectively closed

The sleeper. LC State is the only Idaho public campus whose written policy affirmatively PERMITS outdoor solicitation, needs only a 48-hour reservation, and publishes rental rates for outside orgs. Small student body, but the lowest-friction legal approval in the state. Confirm with Events & Conferences that 'solicitation' as used in 4.114 is intended to cover for-profit product marketing, given Idaho Code §33-6809(1) lets institutions restrict commercial speech.

C. Solicitation / outside-vendor policy

Policy 4.114 — Use of LC State Campus Spaces (updated Apr 2025); Policy 1.106 — Free Speech (Dec 11, 2025)

MOST PERMISSIVE PUBLIC CAMPUS IN IDAHO. 'Fundraising and solicitation IS PERMITTED in outdoor public areas' so long as it does not impede normal campus functions. Outside individuals and organizations may rent spaces at published rates. Tabling requires a reservation at least 48 HOURS in advance through Events & Conferences, first come first served. Picketing, petitions and literature distribution permitted in public areas. A public bulletin board in the Student Union Building is designated for community activities.

Sponsorship requirement: No — reservation + fee

Do NOT try to table cold. Lead with Dr. Gaby Dagher and the NSF Blockchain REU — that is the only named blockchain research capacity in Idaho and the credible, non-commercial door. Separately, court the Financial Management Association as an RSO sponsor and have THEM request the Involvement Fair table. Budget 4–6 weeks for the dual Student Involvement + University Advancement approval.

C. Solicitation / outside-vendor policy

University Policy 1160 — Solicitation (eff. Aug 2, 2022); Policy 1100 — Use of University Space

Generally prohibits solicitation and sales inside University Structures. Outside groups may solicit ONLY if 'sponsored by a University unit or University-recognized student organization,' and the student org needs pre-approval to sponsor a non-affiliate. Commercial-purpose publicity needs Student Involvement AND University Advancement sign-off. Literature may be freely distributed in outdoor Public Areas with no reservation (Policy 1100). Raffles prohibited (Idaho gambling law, up to \$10,000 fine).

C. Solicitation / outside-vendor policy

ISUPP 11010 — Use of University Space for Expressive Activity (eff. Nov 6, 2024); Student Union Scheduling policies

Outdoor areas generally available for expressive activity WITHOUT reservation — and the policy covers 'visitors and the public,' not just affiliates. BUT: 'Commercial activity for the profit of any person or business' is prohibited unless approved IN ADVANCE IN WRITING BY THE VICE PRESIDENT over the applicable space. Outside groups must additionally show a 'direct benefit to the students of Idaho State University,' sign a Facility Use Agreement, and pay a 50% NON-REFUNDABLE deposit within 48 hours. For-profit entities receive NO discount (non-profits and government get 25%).

Sponsorship requirement: No sponsor, but advance written VP approval + Facility Use Agreement + 50% deposit

Pairs naturally with a Spokane leg (Gonzaga / WSU) — Coeur d'Alene is ~35 minutes from Spokane. But expect the 'education/training' framing to be routed to the Workforce Training Office, which is a slower, contract-based path. Policy 6.08.00 — Time, Place, Manner for Exercising Freedom of Speech; Policy 6.02.00 — Non-Employee Use of Facilities

6.08.00 applies to 'members of NIC and the public.' CONCRETE SITING RULE: 'Speech activities are to be conducted no closer than 20 FEET from any exit, entrance, staircase, parking lot or roadway.' Reservation not mandatory but 48-hour notice to Campus Safety encouraged. 6.02.00: 'The college PROHIBITS ENDORSEMENTS of external organizations,' rental rates set by contractual agreement, and — critically — 'All public requests... for the purpose of offering education or training activities' must be routed through the WORKFORCE TRAINING OFFICE. A 'crypto education' pitch will land there. 6.08.00 does not address commercial speech or solicitation — those may be in downloadable procedure docs; verify.

Treat as CLOSED for marketing. The only sanctioned outside channel is the Oct 15 Career Fair at \$250 — and that is a **HIRING** channel. Registering as an 'employer' to market a token would conflict with the advertising prohibition and can be revoked. Attend only if you are genuinely recruiting. Also note the Sept 14 start: a tour built around late-August welcome weeks misses BYU-Idaho entirely.

Campus Communication Policy (via [Non-University Organizations page](#)); [Academic Societies Handbook](#)

MOST RESTRICTIVE CAMPUS IN IDAHO. 'The Campus Communication Policy prohibits off-campus groups from advertising on campus.' Standing exceptions only for the Church, CES, Rexburg Chamber of Commerce and ROTC. Academic Societies 'may not conduct fundraising activities on or off-campus' and 'cannot sponsor unrelated organizations or businesses' — this forecloses the sponsorship route entirely. Guest speakers require a Guest Speaker Request submitted **BEFORE** contacting the speaker, and the faculty advisor must attend, including virtual meetings.

Deprioritize. CSI's policy names marketing and sales as explicitly outside protected activity — this is the single clearest written exclusion of your use case in Idaho. ⚠️ 20-DAY DEADLINE. The best-documented paid external access in Washington: \$300 for a full table on Red Square the day before classes start. The catch is 'by invitation only' — you must email infofair.coordinator@wwu.edu to REQUEST an invitation, and that takes lead time you barely have. Do this in the same sitting as the OSU registration (Aug 27) and the WSU picnic call.

Chapter 516-36 WAC — Use of University Property; POL-U1000.06 Scheduling of Facilities by Off-Campus Groups

WAC 516-36-040: 'University property may not be used for private or commercial gain, including: Commercial advertising; solicitation and merchandising' — with limited exceptions requiring PRESIDENTIAL APPROVAL or formal agreements. The paid Info Fair booth operates under that exception hook. WAC 516-36-030: 'Handbills, leaflets, pamphlets, flyers, and similar materials may be distributed ONLY IN RELATION TO UNIVERSITY SANCTIONED ACTIVITIES.' POL-U1000.06: written request to the president or designee, evaluated on connection to university programs, mission compatibility, community-relationship impact, and 'the applicant's qualifications, experience, and FINANCIAL STABILITY.' The university may require an advance deposit, bond or insurance.

Sponsorship requirement: No — but invitation + presidential-exception route

BEST NON-CAMPUS-POLICY PATH IN THE NORTHWEST: sponsor DubHacks (Oct 17–18). It is a private, student-run event with an open sponsor pipeline and an explicitly flexible budget — it sidesteps WAC 478-136-030's commercial bar in a way campus tabling cannot. ⚠️ But read the UW Blockchain Society's own words first: they describe themselves as 'not hype.' This is a technical, research-oriented audience that will be actively hostile to a token-promotion pitch. Lead with protocol design, not with the \$21.

Chapter 478-136 WAC — Use of University of Washington Facilities

WAC 478-136-030: 'University facilities may not be used for private or commercial purposes such as sales, advertising, or promotional activities UNLESS SUCH ACTIVITIES SERVE AN EDUCATIONAL PURPOSE.' 'No solicitation of a commercial nature is permitted in university residence halls.' ⚠️ CRITICAL: non-university organizations require 'sponsorship by a UNIVERSITY ACADEMIC OR ADMINISTRATIVE UNIT and approved by the appropriate chair' — this is a DEPARTMENT sponsor, NOT an RSO sponsor. The HUB lawn is UW's de facto free-speech area.

⚠️ CORRECTION TO THE BRIEF: EWU is a QUARTER school, not a semester school — 'four 10-week terms per year.' Access is hard: the commercial-gain ban applies and the VP-BF approval requirement explicitly survives sponsorship. The only open door is noncommercial outdoor literature distribution. Worth one stop only if you are already in Spokane (Cheney is ~20 min from Gonzaga).

Reservations ≥48 hours in advance; fees at actual direct and indirect cost. WAC 172-141: non-affiliates MAY engage in first amendment activities outdoors, 6am–10pm, ≤8 hours/day, ≤5 days per two-week period when contested; activities likely to draw 100+ people require 3 days' notice to university police at 509-359-4021. CWU requires BOTH written board/president permission AND departmental or RSO sponsorship — a double gate. Do not table. The policy bars canvassing outright and names Campus Security as the enforcement mechanism — a removal here would be documented and would follow you to other campuses. The ONLY credible path is an academic invitation: approach the Gonzaga University Investment Club (which runs a real \$270K portfolio) and ask to be invited as a speaker on digital-asset market structure, then have GUEST clear it. Expect this to take 6–8 weeks and to fail if the pitch is promotional.

Solicitation Policy (Gonzaga University Policies, student conduct standards)

THE HARDEST 'NO' IN THE PACIFIC NORTHWEST. Verbatim: 'In order to protect student's right to privacy, UNDER NO CIRCUMSTANCES ARE SOLICITORS (INTERNAL OR EXTERNAL) ALLOWED TO CANVAS THE CAMPUS.' And: 'The use of University facilities and resources to conduct commercial ventures not sanctioned by the University is prohibited.'

Enforcement: 'Individuals engaged in these activities will be asked to leave the premises. Failure to do so will result in the staff contacting Campus Security & Public Safety.' The ONLY approval route is the Gonzaga University Event Service Team (GUEST) for a sanctioned vendor table. As a private institution Gonzaga is bound by neither the WAC chapters nor public-forum doctrine.

Sponsorship requirement: GUEST approval is the only route; no RSO-sponsorship carve-out

RECOMMENDED PLAY

⚠️ LOWEST-FRICTION FIRST CONTACT IN THE ENTIRE DATASET. PSU is the ONLY campus that publishes a NAMED INDIVIDUAL as the external-business intake point: Aimee Shattuck, shattuck@pdx.edu. External orgs must contact her directly, not through the portal. Second, and more important: Prof. Kristi Yuthas founded and teaches the region's only blockchain certificate program and lists blockchain's SOCIAL AND ETHICAL impacts as her active research interest. She is the highest-value academic conversation available to you — and she will ask hard questions about the referral mechanic. Have a real answer ready.

⚠️⚠️ MOST URGENT ITEM IN THE ENTIRE PACKET: registration closes FRIDAY, AUG 14 — three days from today. Day on the Quad explicitly sells booths to off-campus businesses at \$300 and is the only Utah fair that does. Because TSC tabling is closed to outsiders year-round and the anti-fronting rule blocks the club workaround, this ONE DAY is effectively your only USU access for the entire academic year. If you register nothing else this week, register this.

C. Solicitation / outside-vendor policy

TSC Table Request policy; USUSA Clubs & Organizations Handbook 2025-2026

'Tabling in the Taggart Student Center is LIMITED TO REGISTERED USUSA CLUBS AND UNIVERSITY DEPARTMENTS' — a categorical exclusion of outside entities from routine year-round tabling. ⚠️ ANTI-FRONTING at Day on the Quad: 'On-Campus organizations/departments are NOT ALLOWED to reserve a space for an off-Campus business.' Beverage exclusivity: 'Only Coca-Cola beverages... may be sold, distributed, sampled, advertised.' Merchandise sales require a Special Event Permit tax form. Clubs 'are not eligible to rent credit card machines from the university' and 'must use off-campus banking systems.'

Sponsorship requirement: No — pay the off-campus fee. Sponsorship is expressly prohibited.

⚠️ ONE OF ONLY TWO CAMPUSES WITH CONFIRMED FALL 2026 FINTECH TEACHING (the other is Wyoming). Four FINAN courses are scheduled with named instructors — that is a real, verifiable audience of fintech students meeting weekly. Lead with a guest-lecture offer to Gene Levinzon (FINAN 2140, the intro course, two sections) and Elena Asparouhova (FINAN 5140 Trading Lab). ACTION ITEM: request the Scheduling Office's published commercial-use rules referenced in Policy 1-007 §IV.D — that unlinked document is the operative gatekeeper for any tabling.

Policy 1-007 — University Speech Policy (Revision 6, eff. Aug 15, 2023); Rule R1-007A

⚠️ NOTABLE: THERE IS NO OUTRIGHT BAN ON COMMERCIAL SOLICITATION — the policy creates a PERMIT/FEE/DESIGNATED-AREA regime instead. This makes the U the most legally open Utah campus. §II.I defines commercial speech as 'all spoken, written and symbolic speech intended in whole or in part for the personal profit of the person, organization or institution engaged in the speech.' §IV.D: the Scheduling Office 'shall publish rules and regulations governing the use of University facilities for commercial and non-University related purposes.' §V.A.2.f: the Dean of Students publishes rules governing posting/distribution 'for commercial purposes.' §V.B.3: rules 'governing the distribution of commercial handbills,' with a possible 'schedule of fees and limitations upon the areas.' BUT Rule R1-007A: 'The use may not be allowed for the personal or private gain of individuals,' and community groups rank 6th in facility priority.

⚠️ READ THE 'NO CONTRACTS ON SITE' RULE BEFORE BOOKING. Weber sells for-profit booths at \$375, which is clean and unambiguous — but the policy explicitly forbids having students sign any contract for services at the booth. If your validation flow requires accepting terms of service on a phone at the table, that flow is non-compliant at Weber. Redesign the booth as lead-capture-only (collect an email, complete signup later off-campus) or don't book. Aug 28 also falls before a strict Sept–Dec window; flex four days to catch it.

C. Solicitation / outside-vendor policy

Wildcat Block Party vendor policy. **⚠️ No dedicated WSU 'sales and solicitation' PPM policy was located.**

⚠️ THE MOST DIRECTLY RELEVANT RESTRICTION IN THE DATASET: 'Vendors may not HAVE STUDENTS SIGN ANY KIND OF CONTRACT FOR SERVICES ON SITE.' That language blocks on-the-spot account creation, wallet onboarding, or any terms-of-service acceptance at the booth. Also: the event prohibits 'retail selling' overall; vendors cannot 'actively solicit, use aggressive sales tactics or harass individuals'; 'Use of microphones or bullhorns for live announcements/broadcasting is prohibited'; canopies capped at 10'x10'. Off-campus groups MAY separately rent Shepherd Union space through Conference Services (unionscheduling@weber.edu, 801-626-7285), with a \$100/hour after-hours charge; full commercial rate schedule not published.

⚠️ **PREMISE CORRECTION:** the assumption that UVU has an active blockchain/fintech program is NOT SUPPORTED — no such program, center, or institute appears anywhere on the Woodbury School of Business site. What UVU does have is the clearest written club-partnership pathway in Utah (Handbook p.20) plus an explicit business-sponsorship mechanism (p.16). That means UVU is a place to BUILD a club relationship, not to find one. Also cross-check the Aug 19 start date — it is a week earlier than any other Utah campus.

UVU Policy 425 — Event Scheduling and Authorizing the Use of University Facilities; Clubs Handbook

⚠️ **MOST PERMISSIVE UTAH CAMPUS ON PAPER.** Policy 425 contains NO standalone section on 'solicitation' or 'commercial use.' §3.7.2 defines 'External entities'; §4.3.2 ranks them lowest in priority (university > co-sponsored > external); all requests go through Events Services. THE REAL OPENING is the Clubs Handbook, p.20, 'Partnering with an Off-Campus Group': the event/organization 'must fulfill the mission and purpose of the club,' the club must be 'heavily involved with all aspects of the planning, publicity, and day of event' and assume responsibility for costs. Separately, p.16 defines SPONSORSHIP as 'an exchange of services between the club and a business' — e.g. money for logo placement on club materials — requiring approval from the Student Affairs Development Officer.

Sponsorship requirement: Club-partnership route available, but the club must genuinely drive the event

TREAT AS CLOSED. Every route is independently blocked: clubs cannot affiliate with off-campus organizations, speakers cannot promote commercial products without VP-level approval, and outside businesses cannot advertise on any campus channel. There is no sponsorship workaround. The only realistic BYU engagement is academic — C S 466 exists and teaches DeFi and Web3 — but it typically runs in WINTER, not Fall. ⚠️⚠️ THIS IS THE ANCHOR OF THE ENTIRE TOUR. The Wyoming Blockchain Stampede (Sep 28–30) is a free, public, blockchain-specific conference held ON CAMPUS, inside your window, with STATE LEGISLATORS PRESENT — the Legislature's Select Committee on Blockchain meets there Sept 28–29. Nothing else in nine states comes close. Wyoming also has the most crypto-friendly statutory environment in the US (WY-DUNA for DAOs, SPDI bank charters, and a virtual-currency exemption from money-transmitter licensing at W.S. §40-22-104(a)(vi)). ⚠️ TONE WARNING: CDBI founder Steve Lupien died July 5, 2026, there is no named successor, and the Sept 29 dinner is a MEMORIAL. Attend as a participant and a mourner, not as a promoter. Do not table, do not pitch the \$21 at that dinner. Separately: UW's campus rules are hostile — strict no-solicitation in the Union, Reg 11-4 bars clubs from commercial solicitation, and anti-fronting blocks the proxy route. The Stampede is the door; campus tabling is not.

⚠️ MSU IS THE PERFECT FIT FOR A NON-TRANSACTIONAL BOOTH — and a terrible one for a transactional booth. Catapalooza bans ANY monetary exchange outright, but EXPRESSLY PERMITS handing out informational materials and collecting contact information for post-event follow-up. That is exactly the compliant shape your program should take everywhere: educate at the table, capture an email, complete validation off-campus and off-clock. Book Catapalooza and use it as the pilot for that model. MSU's Policy 400.00 is also the best-written outside-entity pathway anywhere in the nine states — a rental or sponsorship contract with the commercial activity expressly noted and approved.

C. Solicitation / outside-vendor policy

MSU Policy 400.00 — Facilities Use for Sales/Promotions and Commercial Activities (adopted Jun 1994; revised Feb 2009)

THE CLEAREST WRITTEN ROUTE FOR AN OUTSIDE ENTITY IN THE DATASET. Non-affiliated groups may conduct commercial activity ONLY if: (1) they have contracted to rent a facility AND 'the activity is noted and approved in the contract'; (2) they have a SPONSORSHIP CONTRACT exchanging goods/services promotion for program support; or (3) activities occur in the Strand Union Building as authorized. Blanket rule: 'No state facilities, equipment and/or employees may be used for any commercial purpose.' ⚠️ BUT CATAPALOOZA ITSELF IS STRICTER: 'Vendors are PROHIBITED from seeking a MONETARY

EXCHANGE for products, services, or donations at Catapalooza.' 'Vendors DO NOT sell goods or services (no exchange of money).' ✓ EXPRESSLY PERMITTED: distributing 'informational items, coupons, hand-outs, freebies, company contact information' and COLLECTING CONTACT INFO to follow up post-event 're-confirming their interest.' Raffle-style and controlled-substance booths banned.

Sponsorship requirement: No — but a rental or sponsorship contract with the commercial activity expressly noted

Do not commit travel here until someone phones UM and obtains the solicitation policy in writing. Everything about outside-entity access at Missoula is currently unknown — that is a research gap, not a green light. UM also has the earliest finish in Montana (finals end Dec 11) and three separate no-class days that fragment the fall.

UNR is materially more open than UNLV — outdoor tabling exists with a defined 3-business-day booking process and off-campus groups can request 'special arrangements' rather than being flatly banned. Call csures@unr.edu / (775) 682-7402 and ask what a special arrangement costs. But READ UAM 5,302 and 5,305 FIRST — those are the operative policies and neither was retrievable. Reno is also the most isolated stop in your footprint; only worth it bundled with a Sacramento or Bay Area leg you have not scoped.

Joe Crowley Student Union (JCSU) Tabling Procedures; UAM 5,302 and 5,305

'Any department or recognized student organization (ASUN/GSA) is able to make reservations.' ⚠️ 'OFF-CAMPUS ORGANIZATIONS PROHIBITED INDOORS' — the 7 indoor spots on the 2nd/3rd floors are closed to outside entities. Off-campus groups 'must contact the team directly for special arrangements' — no self-serve path. OUTDOOR: 15 spots, 10'x10', one table + up to three chairs, small speakers allowed. Book 3 business days ahead via Lounge; max 5 active bookings per group; a representative 'must be physically present at the tabling spot for the duration'; daily check-in at the Information Center; NO SOLICITING IN WALKWAYS. ⚠️ NOTE: UAM 1,620 'Solicitation Procedures' governs FUNDRAISING/DEVELOPMENT (gift solicitation via the Foundation), NOT third-party commercial solicitation — DO NOT CITE

DEPRIORITIZE. UNLV combines the most explicit non-university commercial ban in Nevada with an involvement fair that specifically prohibits promoting a business — closing both the direct and the club-proxy routes in a single stroke. The only lawful presence is leafletting in a designated free-speech area with non-commercial material. Not worth the drive from anywhere in your footprint.

Guidelines for Scheduling University Facilities (NSHE / Board of Regents)

MOST EXPLICIT COMMERCIAL BAN IN NEVADA. 'COMMERCIAL ACTIVITY (SALES, MARKETING, ADVERTISING) BY NON-UNIVERSITY ENTITIES IS FORBIDDEN ON THE UNLV CAMPUS' except in designated locations: Thomas & Mack Center, Barrick Museum, Performing Arts Center, McDermott Complex, Student Union, and specific outdoor areas. Non-university users pay full rates and must carry insurance with 'combined single limits of liability of at least \$1,000,000' naming the Board of Regents as additional insured, plus a hold-harmless/indemnification agreement. Non-profits must be county-licensed with federal tax-exempt status. External sponsors may support events but 'cannot create activity that is essentially commercial';

sponsors may distribute free samples only during events in reserved spaces. Free speech areas (leafletting and signature gathering only): Academic Mall, Carol Harter Classroom Building Complex Walkway, East/West Mall.

Sponsorship requirement: Sponsorship cannot cure a commercial purpose

⚠️ PREMISE CORRECTION: CU Boulder's Media Archaeology Lab has NO blockchain research footprint — it is a historical-computing hardware archive under English/Intermedia. The real CU blockchain presence is (1) Eric Alston at Leeds and (2) the CU Blockchain RSO, which meets MONDAYS AT 6PM IN ECCR 200 and is confirmed active. That standing weekly meeting is the single most actionable club touchpoint in the dataset — you know the day, time and room. Pair it with UMC tabling at \$250–350/day (informational) which requires RSO sponsorship plus a University Contract — CU Blockchain could be that sponsor.

⚠️ Watch the Aug 5, 2026 free-speech lawsuit; tabling rules may shift mid-tour.

A named coordinator with a published email (audrey.weber@mines.edu) and a confirmed Aug 28 date make this a cheap phone call. Mines students are quantitatively strong and the school has a real hard-tech culture — a good audience for a protocol conversation. ⚠️ CRITICAL SCHEDULING CONSTRAINT: DU's autumn quarter ENDS NOV 20, 2026. Students are gone from campus for the entire December window, and the term does not start until Sept 8. Any DU activity must land between roughly Sept 8 and Nov 13 — a narrow band that conflicts with the Wyoming Stampede and the Portland/Eugene leg. Combined with zero retrievable policy and no confirmed fair, DU is the lowest-information campus in Colorado. Deprioritize unless a Daniels College contact opens a door.

 Several search results conflate DU with CU DENVER (ucdenver.edu), a separate public institution. If CU Denver is of interest it should be scoped as a separate campus.

RECOMMENDED PLAY

 **SKIP CSU.** This is the campus most likely to generate a compliance incident. CSU's rules do three things simultaneously that no other campus does: they confine commercial solicitation to a single venue (the LSC Flea Market), they bar collecting payment credentials at ANY permitted solicitation — with language explicitly extending beyond credit cards to 'Venmo or similar app info,' which reads directly onto crypto wallet onboarding — and they foreclose the club-sponsorship workaround by name. If you go anywhere in Colorado, go to Boulder.

C. Solicitation / outside-vendor policy

CSU Policy: Sales and Solicitations on University Property (Policy ID 539); Lory Student Center (LSC) Policies

  **THE MOST RESTRICTIVE CAMPUS FOR THIS SPECIFIC USE CASE IN ALL NINE STATES.** Policy 539: 'Sales and solicitations are GENERALLY PROHIBITED in university facilities.' 'All sales and solicitations of merchandise or services for commercial purposes are permitted ONLY IN THE LORY STUDENT CENTER (LSC) FLEA MARKET and must be approved, in advance.'  **AND:** 'Solicitations that are permitted under this policy MAY NOT INCLUDE COMMERCIAL TRANSACTIONS, SUCH AS COLLECTING CASH OR CREDIT CARD INFORMATION.' LSC Policies go further: 'NO FINANCIAL TRANSACTIONS (INCLUDING REQUESTING CREDIT CARD INFORMATION, VENMO OR SIMILAR APP INFO, ETC) ARE PERMITTED ON THE PLAZA.' 'Credit card applications and similar commercial solicitations are explicitly prohibited; staff remove these postings WITHOUT

EXCEPTION.' ⚠️ ANTI-FRONTING: the co-sponsorship policy 'prohibits fronting, where on-campus groups represent off-campus interests.' RSOs may reserve space 'only for events that they directly sponsor, are integrally involved in, and will be present at.'

Sponsorship requirement: Sponsorship route expressly foreclosed by the anti-fronting rule

⚠️⚠️ CALL 520-621-2782 TODAY. The ASUA Vendor Fair is the cleanest, most purpose-built commercial access point found anywhere in the nine states: an explicit for-profit tier at \$500/event or \$800 for the year, a published booth spec, no sponsor required, and no insurance certificate needed unless you serve food or display a vehicle. Fall 2026 dates are not yet posted and last cycle's registration closed Aug 16 at 5pm — five days from today. This is a phone call, not an email. UA ALSO has the clearest written club-sponsorship pathway anywhere ('sponsorship of commercial vendors on the UA Mall' is an enumerated club privilege), giving you a second independent route. Note: raffles are prohibited university-wide, so no raffle-structured giveaways.

Event	⚠️ ASUA VENDOR FAIR — a purpose-built, PAID, outside-business tabling event on the UA Mall
Date	⚠️ Fall 2026 dates NOT YET POSTED. Prior cycle: Fall 2025 Sept 3, 10am–2pm; Spring 2026 Jan 28, 10am–2pm. Registration on that cycle opened July 1 and CLOSED AUG 16 AT 5PM.
Outside orgs admitted?	⚠️ YES — EXPLICITLY. 'Businesses and organizations to showcase their products and services to students, families, and our University of Arizona community.' BOTH for-profit and nonprofit organizations. Past vendors include retailers, entertainment venues, food establishments.
Cost	For-profit: \$500 single event / \$800 school-year package (both fairs). Nonprofit: \$100 / \$200. Booth includes one table, two chairs, and parking for one vehicle. Tents not provided.
Registration deadline	⚠️⚠️ IF THE PATTERN HOLDS, ~AUG 16, 2026 — FIVE DAYS FROM TODAY. First-come, first-served. PHONE 520-621-2782; DO NOT EMAIL.

C. Solicitation / outside-vendor policy

Campus Use Policy (Interim), policy no. SA-200; Campus Use Scheduling (Arizona Student Unions); Clubs Handbook 2026-2027

SA-200 defines 'Commercial Activity' as '(a) all advertising, sales, purchases, or agreements for the sale or purchase of goods or services; (b) all giving, demonstration, or solicitation for the purchase or sale of goods or services.' 'COMMERCIAL ACTIVITY IS GENERALLY PROHIBITED ON UNIVERSITY PROPERTY' — the Vendor Fair and club-sponsored fundraising are the carve-outs. The Mall splits into Reserved Areas (advance scheduling) and Unreserved Areas (no reservation for petitions, literature distribution, picketing) — but 'literature distribution' ≠ commercial promotion; the commercial-activity ban still governs content. Outdoor space requests: 10 business days ahead. Campus Use Scheduling: 'COMMERCIAL ACTIVITIES REQUIRE EXPLICIT APPROVAL TO PROTECT CONSUMERS. UNAPPROVED VENDORS ARE PROHIBITED ON CAMPUS.' Verify approval status by calling (520) 626-2630. Vendors must hold city and state licensing. Approval takes 'a minimum of two calendar weeks.' Amplification M–F 12–1pm & 5–7pm; 85 dB max. ⚠️ CLUBS HANDBOOK: recognized clubs in good standing have the 'ABILITY TO SPONSOR FUNDRAISING EVENTS (INCLUDING THE SPONSORSHIP OF COMMERCIAL VENDORS ON THE UA MALL)' — the clearest written club-sponsorship route in the dataset. ⚠️ RAFFLES PROHIBITED: 'UA, departments, administrative units, and student organizations are NOT permitted to conduct raffles.'

Sponsorship requirement: No for the Vendor Fair; a club-sponsorship route also exists and is explicitly documented

⚠️ **START HERE FOR THE SOUTHWEST LEG** — but start with a person, not a booth. Dr. Dragan Boscovic directs the ASU Blockchain Research Lab AND advises the BFC club: one email reaches both the institutional research capacity and a student organization. ASU also has TWO distinct, confirmable blockchain clubs, which no other campus in the dataset does. The tabling path is genuinely hard (ASU 'does not make space available to non-ASU organizations,' sponsorship is capped at 5 days/semester, and proceeds must benefit the sponsoring club) — so treat ASU as a relationship and speaking opportunity, not a booth. Note also: ASU bans raffles per an Arizona AG determination, which rules out any token giveaway structured as a raffle.

C. Solicitation / outside-vendor policy

SSM 802-01 Scheduling Outdoor Campus Activities Areas; SSM 802-02 Sales and Promotion (on Campus)

SSM 802-01: 'ASU DOES NOT MAKE SPACE AVAILABLE TO INDIVIDUALS OR NON-ASU ORGANIZATIONS FOR PRIVATE USE.' External orgs may access outdoor areas ONLY if 'sponsored by an ASU-registered student organization or ASU department.'

⚠️ **CRITICAL LIMIT:** student groups sponsoring outside vendors for sales get FIVE DAYS EACH SEMESTER, and the proceeds must 'raise money for the sponsoring student organization.' Vendors must complete a Sales/Promotion Agreement; 'DIRECT

PRIVATE SALES TO INDIVIDUALS ARE NOT PERMITTED.' Bans 'fixed or immobile signage of any kind.' SSM 802-02: external vendors may participate only 'as part of an ASU-sponsored event'; individuals seeking personal gain are prohibited; outdoor event/sales requests ≥3 full working days ahead, and events involving non-university individuals ≥2 WEEKS ahead due to added approvals, insurance and fees. ASU departments CANNOT conduct raffles (per Arizona AG determination). Available outdoor sales spaces for non-university orgs: portions of Cady Mall, Orange Mall, Student Services Lawn.

Sponsorship requirement: Yes — ASU-registered student org or department, capped at 5 days/semester, proceeds must benefit the sponsor
